

### Single Premium Refund Schedules

(HOMEOWNERS PROTECTION ACT CANCELLATIONS)

### Applicable to all loans on or after April 1, 2013

National MI Borrower-Paid Single premium plans provide for the cancellation of coverage when 78% LTV is reached, as requested by the servicer. No refund is provided if coverage has expired. If a refund is required under the Homeowners Protection Act of 1998, a refund of unearned premium will be provided.

#### To Calculate the Refund Amount:

- 1. Identify the refund schedule which applies to the loan based on original loan-to-value (LTV) and original loan term.
- 2. Determine how many months the certificate has been in force.
- 3. In the following table, find the value in the schedule column for months in force.
- 4. Multiply the original premium paid by the % determined in step 3 to calculate the amount of the refund.

## Single Premium Refund Schedules

(HOMEOWNERS PROTECTION ACT CANCELLATIONS)

# Applicable to all loans on or after April 1, 2013

#### To Calculate the Refund Amount:

- Identify the refund schedule which applies to the loan based on original loan-to-value (LTV) and original loan term.
- 2. Determine how many months the certificate has been in force.
- 3. In the following table, find the value in the schedule column for months in force.
- 4. Multiply the original premium paid by the % determined in step 3 to calculate the amount of the refund.
