

Rate GPSSM

Granular Pricing System

Our risk-based pricing technology provides competitive rates for your borrowers based on individual loan characteristics.

Rate GPS will help you gain more business from well-qualified homebuyers by using a more granular way of pricing based on multiple factors specific to your borrower's situation.

Getting a Rate GPS Rate Quote

You can access these rates via our National MI AXIS application, online, by mobile app and on most industry LOS and pricing engines.

See our [Technology Partners](#) page for a complete list of our LOS/PPE Rate GPS integrations.

It's Easy to Get a Quote Now

With just a few additional fields to enter (including your Master Policy number), you will secure a quick and easy rate quote for your borrower.

Just print or save the rate quote PDF in the loan file, it's that easy.
